## Autumn Plant Show and Sale

### Description of the event

Fall is a great time to organize and clean the gardens for next year's big event. It is also a wonderful time to plant trees, shrubs, and perennials. There is less stress for you and the plants. Here's a big secret, the plants still grow in the winter! Give them a nice cool growing season to establish their root systems. There are no worries about insects, diseases, or heat. Fall is a wonderful time to be outside in our gardens. So why not come join us for the Second Autumn Plant Show and Sale! The show will feature knowledgeable plant growers from across the state of Virginia showcasing Virginia-grown plant materials. The growers will be available to provide information to help you raise healthy plants and a landscape that is bold and beautiful. Businesses with garden machinery, professional garden tools, materials, and garden-related services will be present to provide you with the information you need for that dream garden. The Master Gardener Volunteers will be giving demos on various aspects of garden maintenance and growers will be giving demonstrations in the afternoon.

For more information call: 540-349-5314 or 540-347-3172
